PREFACE.

The Norwich Directory for 1870 (No. 10) contains 42 more pages than last year, about 7007 names, being an increase of 875 over those of last year. The number of changes of address is 1,323; erasures 2,912 and 2,280 additions. It also contains in addition to its usual valuable statistical information the official vote of the State for State officers, as also the official vote for Senators. The grand list shows a gratifying gain in the wealth and prosperity of the Town. The total amount of the list being \$22,619,455, from which deduct the property exempt \$9,109,891, leaving \$13,509,564, as the net taxable list, a gain of \$299,362 over last year. Number of Dwelling Houses, 2,132 a gain of 147. A glance at the Joint Stock and Chartered Companies and Banks, shows the amount invested in Stock Companies, \$4,029,000. In Railroad and Steamboats, \$3,350,000 and in Banks, \$2,635,000; in all, \$10,014,000, and the different Savings Banks have in deposit over \$8,000,000.

The publishers would render thanks to the merchants and others who have kindly shown their appreciation of the work by their patronage and good will, and we hope our advertisers will be amply repaid for their investment. We commend the volume with its imperfections, (for it is idle to suppose that out of the multitude of names there are no errors) to the attention and patronage of the public.

PUBLIC SCHOOLS.

NORWICH FREE ACADEMY.

The Norwich Free Academy was incorporated in May, 1854, having been endowed to the amount of about \$100,000 by the gifts of a few generous citizens of Norwich. Of the whole amount raised, \$50,000 were reserved as a fund, for the maintenance of the school, and with the remainder a lot was secured fronting Williams Park, and a noble school edifice erected. The productive fund now amounts to \$90,000. The grounds are unsurpassed by those of any similar institution in the country. Connected with the Academy is the Peck Library, founded by Mrs. Harriet Peck Williams, wife of General Wm. Williams. This lady donated \$7,000 for this purpose, \$5,000 of which are to remain forever as a permanent fund to support and enlarge the Library. This fund, by judicious investments now amounts to \$6,000, and books are being added every year. In 1859 Mrs. William P. Greene donated to the Academy a valuable house and lot on Broadway, for the residence of the principal of the Institution. The school has excellent and quite extensive apparatus for illustrating the natural sciences; and familiar lectures with experiments are given each term in these branches. There is also an excellent Mineralogical and Geological cabinet, and a large collection of ancient and modern coins.

By a donation from J. Newton Perkins Esq., a handsome bronze medal has been established in each of the following departments, viz: Latin and Greek, Mathematics, Natural Sciences, Chemistry, Declamation, English Composition, English Studies, Modern Languages, Drawing and Music. A fund amounting to \$1,000, to be called the Williams fund, was given in 1869, by Mrs. General Williams, the income of which is to be distributed yearly in three prizes, one for Book-Keeping, one for Reading, and one for Letter Writing. Pupils of both sexes are admitted, and tuition is free to those whose parents or guardians reside in the town of Norwich, but such pupils pay four dollars a term, for individual expenses. All others pay a tuition of THIRTY DOLLARS a year, in addition to the charge for incidentals.

BOARD OF TRUSTEES.—Wm. Williams, Pres.; Ebenezer Learned, Treas. and Sec'y.; Wm. A. Buckingham, Lafayette S. Foster, Henry B. Norton, John F. Slater, Charles Osgood, James Lloyd Greene, Lorenzo Blackstone.

INCORPORATORS.—*Russell Hubbard, *William P. Greene, Wm. A. Buckingham, William Williams, Henry B. Norton, *John Breed, Caleb B. Rogers, Wm. W. Coit, J. Lloyd Greene, Daniel Tyler, Samuel C. Morgan, Israel M. Buckingham, Lafayette S. Foster, David Smith, John F. Slater, Charles Osgood, *Erastus Williams, Lorenzo Blackstone, *John A. Rockwell, Leonard Ballou, *Charles J. Stedman, John P. Gulliver, Chas. N. Farnam, *Edward O. Abbott, *Charles Tracy, Albert H. Almy, Lucius W. Carroll, Jedediah Spalding, *Stephen W. Meech, *Jeremiah S. Webb, *Henry Thomas, Christopher C. Brand, Charles Johnson, Ebenezer Learned, *Elisha Edwards, *Andrew J. Currier.

**OTIS LIBRARY.—(COR. CHURCH AND UNION STS.**

This Library was established in the year 1848, by the late Joseph Otis. The building was erected by him, at a cost of \$6,000, and a fund, (now amounting to \$6,500,) set aside by him, the income of which is to be forever appropriated for the purchase of books. This fund has been added to by the donation of \$1,000 by Mr. Chas. Boswell, of West Hartford. The whole is in charge of a self-perpetuating Board of Trustees. The Library is open to all residents of the town of Norwich, who can enjoy its privileges by the payment of two dollars for books, or three dollars for books and periodicals, a year.

Trustees—Wm. A. Buckingham, George Perkins, Charles Johnson, Gardner Greene, Wm. Hutchison, M. M. G. Dana, W. A. Aiken.

Pres't—Wm. A. Buckingham. Sec'y—George Perkins.
 Committee on Books—Wm. Hutchison, M. M. G. Dana.
 Committee on Catalogue—Chas. Johnson, L. E. F. Spofford.
 Librarian—H. B. Buckingham. Ass't—L. E. F. Spofford.
 Number of volumes in Library, 8,000. Number of ticket
 holders, 600.

Connected with this Library is a Pastoral Library, designed
 for the use of the Pastor of the 2d Congregational Church.

THE CITY OF NORWICH WATER WORKS.

The Legislature of the State of Connecticut, during the session of 1866, passed an "Act to provide for a supply of pure and wholesome water in the City of Norwich," allowing the city to issue bonds for the construction of Water Works.

In the following December the Committee reported that they had examined several lakes and streams in the vicinity, and recommended the purchase and adoption of a stream at Norwich Town, one of the tributaries of the Yantic River.

Soon after the presentation of this report, Messrs. Alba F. Smith, James S. Carew, Jedediah Spalding and Henry L. Clark were elected a Board of Water Commissioners, and Mr. Nathan S. Gilbert, was appointed Water Commissioner by the Court of Common Council, from among the members of the Council, and John T. Fanning, was appointed Secretary and Engineer of the Board.

The Board proceeded to perfect plans and specifications which with the full details were presented to the Court of Common Council in September, 1867, and were by the Council approved.

Their plan contemplated the construction of a reservoir in a natural valley, by throwing an earth-work embankment across the stream, and thus flowing sixty-eight acres of land, with an average depth of sixteen and one-half feet of water, and with a total storage capacity, including the saturation of the banks, of about two hundred and fifty millions of gallons, and with the surface of the reservoir two hundred and fifty-three feet above the level of the Thames River, at ordinary low tide.

The plan also contemplated the distribution of the water through wrought-iron pipes lined with, and bedded in cement. The clear diameter of the main supply pipe, is fourteen inches. The smallest street mains are four inches diameter. The pipes have sufficient capacity for delivering one and one-half millions of gallons at the level of Franklin Square, in ten hours, without great loss of pressure.

The hydrostatic head is sufficient to force water from the hydrants on Main street through one hundred and fifty feet of hose, and one hundred and thirty feet vertically, so that hose can be attached to the hydrants direct, for fire purposes. The pipe mains are laid through the principal streets of the city and about thirteen miles of the pipes were in successful use on the first day of June, 1869. All the details of the reservoir have been constructed in the most thorough manner, with a view to

permanency of the works, and the purity of the water. The sides of the reservoir have been lined with a stone slope-wall, which is carried to an average height of two and one-half feet above the water surface. The reservoir is two and one-half miles from Main street, is one and one-eighth miles long, and has an irregular outline.

The reservoir gate was closed for filling the reservoir on the 23d of October, 1868, and the water began to overflow at the waste-way January 16th, 1870.

The time required for filling the reservoir, according to the estimated available quantity that might be ponded, as stated in the report dated September 13th, 1867, would be 474 days.

The estimated consumption of water during the time between the closing of the gate and the commencement of overflow, was 18,000,000 of gallons.

The time actually passed, between the closing of the gate and the commencement of overflow, was 450 days.

These calculations show, that the actual quantity of water saved during the filling of the reservoir, exceeded the amount adopted as an estimated average by considerable more than the total consumption and waste during the same period, or an excess of ten and one-half per cent., and show the daily average of water saved, during the time of filling, to have been 817,778 gallons. This would be equal to a daily supply of forty gallons per day to 20,444 persons.

The total cost of the works, including lands and rights of way up to June 1, 1870, has been \$300,585 07. To meet this, the Legislature have authorized the City to issue Water Bonds, bearing 7 per cent. interest, to the amount of \$250,000.

WATER RATES.

Regular rates for the use of water, where the fixtures are within the premises supplied, will be due and payable at the office of the Commissioners quarterly, on the first day of each January, April, July, and October. The amount of rates per annum will be as follows:

Dwelling, Tenement and Boarding Houses, for each family not exceeding five persons,.....	\$5 00
Each additional person	1 00
Hotels, per special contract.	
In each Dwelling, Tenement, and Boarding House, there will be additional charges as follows:	
For each Water Closet.....	3 00
For each Bath Tub,.....	3 00
For each Urinal,	2 00
Public Baths for each Tub,.....	5 00
Eating Houses, not including jets or fountains,....	10 00 to 30 00
Soda Fountains each,.....	\$12 00
Markets and Stalls,.....	8 00 to 20 00
Barbers' Shops.....	5 00 to 25 00
Jets and Fountains, per metre measurement or special contract	

Banks and Home Insurance Offices,	6 00 to 12 00
Professional and Agency Offices,	5 00 to 10 00
Photograph Gallery,	10 00 to 20 00
Wholesale, Retail and Commission Stores,	5 00 to 15 00
Building purposes:—	
For each thousand brick,	0 15
For each cubic yard stone mortared masonry,	0 05
For each hundred yards plastering, per coat,	0 35
For general building purposes, per bbl.,	0 06
Steam or Hot Water Heating Apparatus, for private dwellings,	5 00
Iron Foundries and Chemical Works, per special contract or by meter measurement.	
Mechanic Shops and Establishments,	5 00 to 25 00
Water Power per special contract, or measurement by meter.	
Steam Engines, high pressure, run not exceeding twelve hours per day, for each horse power not exceeding ten,	5 00
Do. exceeding ten horse power,	4 00
Street and Building Front Washers, not exceeding 1-4 inch nozzle, per foot in front,	0 06
Yard and Garden Hydrants, not exceeding 3-16 nozzle per 1,000 square feet area,	50
Private Fire Plugs, to be used only in case of Fire—	
1-2 inch tap,	3 00
1 inch tap,	5 00
1 1-2 inch tap,	8 00
2 inch tap,	12 00
Private Stables, including carriage washing without hose:	
Not exceeding two horses,	4 00
Each additional horse,	2 00
For use of hose—each horse,	1 00
For each cow,	1 50
Livery and Sale Stables:—	
For each horse, without hose,	2 00
“ “ “ with use of hose,	2 50
Dray, Car, and Omnibus stables, each horse,	1 50
Railroads and Shipping per special contract.	
Not more than twenty-five per cent. discount will be allowed from the above fixed rates when supplies are taken from yard fixtures, or without the premises.	
Rates for all purposes not enumerated in the foregoing tariff, per special contract.	

METER-RATES FOR SPECIAL PURPOSES.

Not exceeding 15,000 gallons annually, 30 cents per 1,000 gallons; exceeding 15,000 gallons and not exceeding 20,000 gallons annually, 25 cents per 1,000 gallons; exceeding 20,000 gallons annually, 20 cents per 1,000 gallons.

If you want a Nice Suit go to Henry Hayes.

BARSTOW & PALMER, STOVE and AGRICULTURAL IMPLEMENTS,

AND

SEED WAREHOUSE, No. 15 Water St., Norwich, Conn.

CELEBRATED AMERICAN HOT AIR

Gas Burner Cook Stoves,

SHEAR PACKARD & CO. ALBANY, N.Y.

Are constructed with a view of great durability. All the plates exposed to the fire are made of an extra thickness. The flues are lined with non-conducting cement, thereby applying the heat directly to the oven, and the oven can be heated and kept in baking order with less fuel than any other Stove.

They have a hot-air draft, which not only makes the fuel burn freely and last longer, but adds to the heating and baking facilities. They consume all the gases from the fuel, thereby adding largely to the amount of heat obtained from the quantity of fuel burned. The stove is made and mounted, and finished in the most superior manner.

In addition to our former large assortment of Stoves, we sell all different patterns of Stoves and Ranges made by the

RICHMOND STOVE CO.,

Which, for neatness of design, smoothness of castings, and convenience of arrangements, are not excelled by any other made.

Also, a large assortment of other patterns, Cooking, Parlor, and Heating Stoves, Plows, Cultivators, Ox Shovels, Hay Cutters, Corn Shellers, Fan Mills, Horse Rakes, Mowing Machines, and Agricultural Implements of all kinds. Grass, Field and Garden Seeds, Tin Ware, &c.; Guano, Superphosphate Lime, Plaster, Ohio Grindstones, &c.; Cast Iron Apple Grinders and Cider Mill Screws. All of the best quality and at the lowest price. REFRIGERATORS, the best in use.

VOTL OF NORWICH, MONDAY, APRIL 4TH, 1870.
